We will then need to determine method of payment…Visa, MasterCard, Money Order, Interac e-transfer Bank Transfer (Canada Only), etc.

Regarding Postal Shipping

There is a $40.00 product minimum on mail orders because it costs about as much to ship a $20.00 order as it does a $60.00 to $80.00 order (depending upon items), & takes just as much paper, ink, & time to process.
It is more economical to ship items under 30 Kg (66 lb) via the post office. Courier shipments (UPS, FedEx, etc.) across international borders incur brokerage fees of app. $30.00+ in addition to freight costs.
Since COVID-19 shipping rates have increased app. 20 to 30%.

Applicable Canadian taxes are extra on sales within Canada.
No Canadian tax is charged on 'out of Canada' shipments.
